

Lighting Africa Development Marketplace Grant Competition

54 Final Competitors

| Project Title | Implementation Country | Organization |
|---|------------------------|---|
| Connecting the future | Mali | Brodtech B.V. |
| Kodesha Mwangaza- Rent A Light | Kenya | solar world ea ltd |
| Affordable Solar Lamps through Used Clothes Network | Multi-Country | ADPP Mozambique |
| Anambra State Solar Lighting | Nigeria | Glenergy Inc. |
| Bounce the Light of a Bright Wall | Kenya | Self |
| Cell Phone Light Station | Multi-Country | Carmanah Technologies Corporation |
| Clean Electricity from Plant Matter | Rwanda | BioVolt |
| Cranking Up Light and Potable Water in Mozambique | Mozambique | AHEAD Energy |
| Creation of Supply Chains and Distribution Networks of Solar Energy Systems and Energy Efficient LED and other Solid State Lighting Products for Off-Grid Applications in Uganda. | Uganda | Energy Plus Ltd |
| Deployment of Renewable Energy Technologies for Rural Lighting in Africa | Nigeria | Besteck Energy Limited |
| Developing a Delivery Model to Support Consumer Financing Schemes for Solar Powered Lighting Systems | Kenya | Energy for Sustainable Development Africa |
| Development and Deployment of Solar-Based Lighting Products and Entrepreneurships | Tanzania | ECotality |
| Distribution of Solid-State Kerosene-Replacement Lighting: Large-Scale Dissemination of a Micro-Scale Technology | Multi-Country | sympletek |
| Door-to-Door Service of Solar Lanterns in Ghana | Ghana | Wilkins Engineering Limited |
| Dye sensitised thin film solar lighting | Rwanda | G24 Innovations |
| Establishment of a Rural Microfinance Energy Division for the Tanzanian Microfinance Institution SEF based on the Grameen Shakti Model (ERMED) | Tanzania | MicroEnergy International |
| Finance and Improved Market Access for Rural Solar Lighting | Tanzania | Tujjenge Tanzania |
| Greenlight Ghana | Ghana | Greenlight Canada |
| Innovating clean energy technology based delivery channel for lighting up Africa and creating institution for their sustainability | Malawi | The Energy and Resources Institute (TERI) |
| Intensive biomass production technologies for rural electrification | Kenya | Kenya Forestry Research Institute |
| Light Up Rural Uganda | Uganda | Uganda Development Trust |
| Lighting for the Frankincense and Myrrh Industry in Somaliland | Somalia | Gund Institute |
| Lighting Rural Benin through Hybrid Wind/Solar Generators | Benin | Greentecno SA |
| Lighting the way | Zambia | UC Davis |
| Lights For Life in Rwanda | Rwanda | Lights For Life |
| Longoi Village Low Cost Lighting Project | Tanzania | Ensol Tanzania Ltd |
| Lunar-resonant Solar-driven WIFI Streetlights | Nigeria | SwisNic Ltd. |
| Modern Lighting for Rural Ghana | Ghana | Toyola Energy Limited |
| New light from old batteries | Congo, Dem. Rep. | Antenna Technologies |
| Nishati ya Kijiji | Tanzania | German-Tanzanian Partnership |
| Nyamirama Bright Vision project | Rwanda | International Teams Canada |

| Project Title | Implementation Country | Organization |
|---|------------------------|--|
| One Child one Solar Light | Ghana | Solux E.V. |
| Pedal Power Project | Multi-Country | dissigno |
| PedalPower and Light | Multi-Country | VillageTech Solutions |
| Photovoltaic Power to Light Dassilame, Senegal | Senegal | Africa Web Services |
| Pico Hydro for Rural Lighting and Electrification | Uganda | Pico Energy Ltd |
| Pilot landfill gas system and plant based on Bio-digestion of piggery Manure | Uganda | Cabreri Farm Products Ltd |
| Popularize a local solar lantern | Burkina Faso | CB ENERGIE |
| Power to the Poor: Off-grid lighting from cassava waste in Nigeria | Nigeria | Global Network for Environment and Economic Development Research |
| Providing Affordable and Reliable Solar systems in Northern Tanzania | Tanzania | Zara Solar LTD |
| Quality DC CFLs for off-grid markets | Multi-Country | ELI |
| Recyclo Solar | Multi-Country | Agropark Climat Association |
| Reducing investment hurdles for PV lighting | South Africa | Synopsis |
| Renewable Electrification For The Rural Poor in Nigeria | Nigeria | Rural Africa Renewable Energy Project |
| Rural Lighting Access Program | Kenya | GPower |
| Solar Electric Streetlighting Assembled and installed in Ghana | Ghana | SEPCO-Solar Electric Power Company |
| Solar Energy Provision for lighting and portable water provision to the low income rural Community of the Nganha Village in the Adamaoua Province of Cameroon | Cameroon | Global Village Cameroon |
| Solar lamps replace kerosene lamps | Uganda | Sunlabob |
| Spiral Design and Development of Rural Lighting Concepts Using Locally Available Materials | Burkina Faso | University of Maryland |
| Technology Transfer and Development of Local entrepreneurs in LED based home lighting in Kenya | Kenya | THRIVE |
| Umeme Kwaote - "Light for the People" | Multi-Country | OSRAM GmbH |
| Using photovoltaic kits to improve rural women's economy and social status in southern Togo | Togo | Jeunes Volontaires pour l'Environnement |
| Village Lighting Solutions to Improve Education, Safety and Productivity in Rural Namibia | Namibia | The Lebone Group |
| Working Through Faith-Based Organizations to Provide Improved Lighting and Battery Charging for Low-income Households and Street Vendors in Rural Communities | Liberia | Center for Sustainable Energy Technology |
